

Saginaw Series Power Steering Pumps

There are **THREE** belt driven Saginaw pumps. Two are **BIG BEARING** and the third is a **BUSHING** type. The outside diameter is the same on all three pumps - **5 3/8"**.

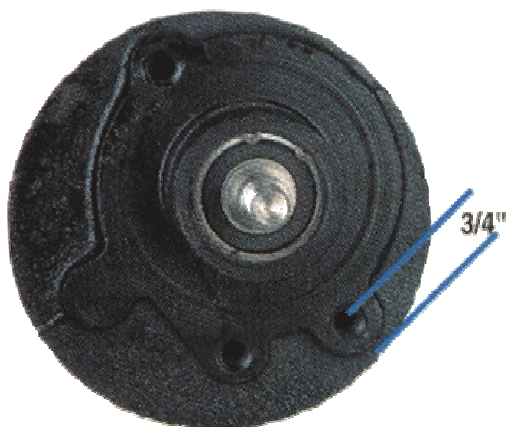

The OD of the bearing housing measures **2.1"**.

The OD of the bushing type measures 1.6".

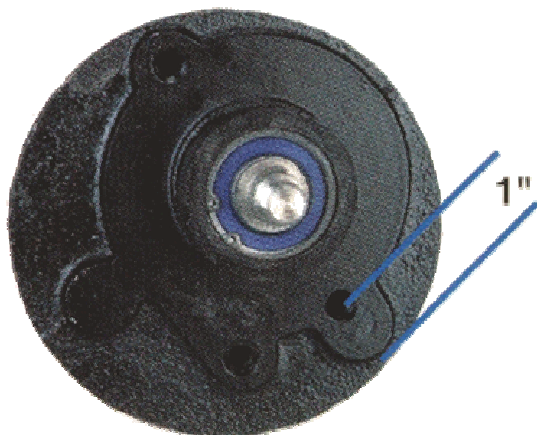

NOTE: Saginaw pumps are supplied with the seals necessary to service the reservoir.

For vehicles with dual cylinders or where the pump is mounted at the accessory drive call 800-783-3748
